PRESS RELEASE

PSA RSSO II Records the Highest Percentage of LGUs Across Regions in the Data Presentation of the 2024 CBMS (preliminary results)

Date of Release : 31 July 2025
Reference No. : PR-2025-044

Snapshots during CBMS Data Presentation from various municipalities within the region.

31 July 2025 – TUGUEGARAO CITY, CAGAYAN. The Philippine Statistics Authority - Regional Statistical Services Office II (PSA RSSO II) recorded the highest percentage of Local Government Units (LGUs) across regions in the country in the conduct of the preliminary data presentation of the 2024 Community-Based Monitoring System (CBMS) from 01 July to 30 July 2025.

As of 31 July 2025, the CBMS data presentations had been successfully conducted in 80 LGUs with active participation from local officials, department heads, and other personnel of the LGU. To wit:

Province	Total No. of Cities / Municipalities	Number of LGUs done with CBMS Data Presentation
Batanes	6	6
Cagayan	29	27
Isabela	37	30
Nueva Vizcaya	15	11
Quirino	6	6

The data presentation is vital in the overall conduct of the 2024 CBMS, allowing LGUs to provide input before the data is formally turned over to them. With CBMS, the crafting of poverty alleviation programs will significantly improve leading to inclusive development and growth in the lowest geo-political unit in the country.
